INVITATION

The Interamnia World Cup continues its journey even stronger and prouder of its experience, which over time has given it great notoriety internationally for its originality and its technical-sporting and socio-cultural values. In order to safeguard these important values, ensure a more efficient organisational structure for the tournament in line with the times, and provide more adequate financial support, the Municipality of Teramo has worked in synergy with the association to establish an Institutional Committee. This committee includes the major local Public Bodies and involves important national partnerships, both public and private.

Considering a broad participation request from clubs of various nations, representing the 5 continents, confirmed by our 210 Ambassadors, we are seeking to revitalise the event in all its aspects and to pay greater attention to organisational, logistical, and entertainment aspects. Therefore, we are ready to welcome a larger number of enthusiastic participants, aware that they are coming to Teramo and will feel comfortable in a city and in a territory that is open and hospitable, which, over time, has promoted original and significant initiatives in favour of solidarity and brotherhood among peoples.

Some of these will be restored and further enhanced with the hope of contributing to the establishment of a UNITED WORLD. Our invitation to spend a whole week of sports, tourism, and fun is addressed, as always, to everyone without distinction of race, gender, custom, or political colour.

Welcome to Teramo. Welcome world!

TERAMO AND ITS PROVINCE

With its unique and enviable geographical position, the city of Teramo is the ideal place to combine sports competition with a pleasant period of entertainment and various types of amusement. Located in central Italy, the town is equidistant from the Adriatic Sea, with fifty kilometres of coastline and sandy beaches of fine golden sand and the highest peaks of the Apennines, the mountain range of Gran Sasso, included in the largest natural park in central Italy, with impressive snow-capped peaks and a wild and unspoiled nature.

Among the artistic testimonies of the Roman and medieval past present in the city, the Teramo territory combines, especially during the tournament period, a significant beach and tourist season, thanks to the wealth of accommodation facilities and attractions, particularly for young athletes: sun, sea, water facilities, nightclubs, and musical and entertainment events.

In Teramo, gastronomic culture also plays a leading role in welcoming and hospitality, with a variety of venues and restaurants offering the most genuine and representative dishes of a rich and ancient tradition. Its central location, just over 150 kilometres from Rome, makes Teramo the ideal base for excursions and easy access to Italy's most fascinating destinations and art cities, among the most beautiful and famous in the world, such as Florence, Venice, and the Capital itself.

COLLETERAL INITIATIVES

Participants, during their stay in Teramo, will have the opportunity to experience non-sporting moments, provided by a very rich program of initiatives and collateral events. A series of small and large international events and exhibitions, which can be enriched by the collaboration of clubs willing to recommend, to our secretariat, any artists and exhibitors interested in participating.

WELCOME MEETING (July 9)

Just a few hours before the grand inaugural parade, there is a welcoming ceremony dedicated to the participating officials and referees. It is also an excellent opportunity to meet colleagues, build relationships, and kick off a week of sports, friendship, and joy.

QUI TERAMO, ITALY - Grand Inaugural Parade (July 9)

"QUI TERAMO, ITALY" is the slogan that aims to succinctly describe the festive, colourful, and suggestive context of the grand inaugural parade of the Interamnia World Cup, which is already so rich and cosmopolitan. The traditional parade will take place at night, on Thursday, July 9, winding through the historic centre of Teramo to merge, like in a magical cocktail, the athletes participating in the handball tournament, Italian and foreign musical groups, historical, folkloric, and theatrical performances of various kinds. The beauty and "magic" of the initiative lies precisely in the combination where young people are the protagonists of a marvellous and unforgettable party. Those dressed in typical, traditional costumes from their own country or city, those in representative uniforms or with original and extravagant clothing, the young people from every corner of the globe characterise their presence, offering a unique spectacle of their personal creativity. The event brings together in an ideal embrace the city of Teramo and the numerous guests from all over the world, some of whom are affected by tensions, from which a testimony of peace and friendship among peoples wants to emerge.

REFEREES 2026 VS TRAINERS (July 14)

Participants in the tournament but not players, handball experts but not active athletes: it will be the referees present at the 2026 edition of the Cup to "challenge" the coaches who field their teams. Competition and fun are guaranteed, and the tournament proves to be a unique moment of meeting and confrontation of the different entities revolving within the world of handball.

COLLETERAL INITIATIVES

TOURIST EXCURSION STONES AND PEOPLES 2026 (July 13)

As part of an interesting project entitled "The mountain as the centre of the world," the Organising Committee, in collaboration with the Explora International Association, proposes an initiative that has always been successfully carried out in past years, "Rocks and Peoples 2026."

We therefore invite the participating clubs to bring a small stone from their territory to Teramo, which will be placed on the highest peak of Gran Sasso d'Italia among the stones of symbolic mountains of the world, as a symbolic union of the people of the Earth.

MISS & MISTER INTERAMNIA WORLD CUP (July 13)

Who are the most beautiful in the Coppa Interamnia?

Surely the boy and the girl who will be able to wear their cultural identity with naturalness and imagination, giving beauty a dimension broader than purely aesthetic.

Beauty is also joy, colour, style, and pride in one's way of being.

It's a Beautiful World is an actual fashion show where athletes are invited to wear the clothes they adore the most, those that best describe them and that tell more about their culture, their personality, their way of interpreting... fashion!

LEISURE TIME

CONTEST "THE MOST CHARACTERISTIC COSTUME" [QUI TERAMO, ITALY] - Grand Opening Parade

In order to further enrich the traditional Grand Inaugural Parade with ethnic and folkloric contents and to further stimulate the participation of the participating teams in its various aspects, the organisers have launched the "Most Characteristic Costume" Contest.

All participants are therefore invited to unleash their creative spirit and characterise their participation by wearing costumes related to their nation or their city, or by highlighting the most peculiar aspects of our sports event, which is fundamentally inspired by the themes of brotherhood and friendship among people.

An ad hoc Judging Commission will identify the most deserving group to whom a free stay will be offered as a prize during the 54th Interamnia World Cup (up to a maximum of 15 people)

Participation of at least 10 groups is required for the competition.

EXCURSIONS IN TERAMO AND AMONG THE BEAUTIES OF ITALY

During the tournament, thanks to the particularly favourable geographical position of the city of Teramo, it is possible to reach the seaside resorts and the water amusement park in just over half an hour using public transport.

As part of the "Stones and Peoples 2026" initiative, an excursion will be organised in the mountains, in the heart of the Gran Sasso-Laga National Park, on the highest peaks of the Apennines, managed by the event organisation.

For those who would like to take advantage of their stay in Italy and visit the art cities of Rome, Florence, or Venice, the day after the tournament ends, it will be possible to take a trip at advantageous costs. Interested clubs can request detailed information from the Organising Secretariat.

CURIOSITIES AND STATISTICAL DATA

Technical-sporting aspects:

The Interamnia World Cup is also one of the longest-running international tournaments that, over the years, has played a leading role in promoting sports and handball in particular, attracting international attention to the point of being defined by the International Handball Federation (IHF) in 2002 as “the most important youth handball tournament in the world.” Founded in 1973, the event takes place continuously during the first half of July and, in 51 years of activity, has established itself as one of the main events on a global level, offering youth teams the opportunity to start competing on an international stage and providing major teams with the chance for appropriate athletic preparation for the main championships.

- The Interamnia Cup has the merit of managing to host - year after year - (with an average of 42 nations per year in the last 23 years) in a single location, Teramo, a total of 9,274 teams from 117 nations, which represent more than 54% of all countries in the world and more than 75% of all nations where handball is practiced;

- The Coppa Interamnia has the merit of always favouring the quality of the participants (over quantity), counting, since 1983:

- Technicians, managers, and athletes of national Under 21 teams from 54 countries, representing the 5 continents, for a total of 264 teams, 148 male and 116 female (including the male world champion teams of the Soviet Union and Egypt and the female teams of the Soviet Union, Romania, Denmark, and Russia);

Technicians, managers, and athletes of youth teams from the most prestigious clubs in Europe (including 14 winners of European Cups for senior teams, representing 9 nations, and 132 who have taken part in European Cups for senior teams, representing 31 nations);

- Illustrious personalities of the world handball (executives and coaches / former internationally renowned athletes), journalists (from newspapers and major broadcasters), and photojournalists;

CURIOSITIES AND STATISTICAL DATA

- The Interamnia Cup has provided a valuable contribution, moreover:
- To the growth of the refereeing class by hosting, up to now, 3,228 referees from 78 nations, from 4 continents;

Dominican Republic, Réunion, Tibet, Uruguay, Zimbabwe, Yemen).

The Interamnia Cup also has the merit of having fostered the birth of many other tournaments worldwide and of increasing the spread of handball internationally, thus also strengthening its image and credibility.
